REGIONAL PARTNERSHIP GRANTS ROUND 5
2018–2021
JUDICIARY COURTS FOR THE STATE

**LEAD AGENCY:** Iowa Children’s Justice

**LOCATION:** Des Moines, IA

**PROGRAM FUNDING:** $1,800,000

**GEOGRAPHIC AREA:** Eastern Region of Iowa

**ADMINISTRATION FOR CHILDREN AND FAMILIES REGION:** Region 7

**CONGRESSIONAL DISTRICT SERVED:** IA District IA-02

---

**BRIEF PROGRAM DESCRIPTION**

This project has created two Child and Family Assessment and Treatment Centers (CFATCs) to serve children and families in two of Iowa Department of Human Services’ (IDHS) service areas in the Eastern Region of Iowa (the northern service area counties of Allamakee, Butler, Black Hawk, Bremer, Buchanan, Cerro Gordo, Calhoun, Chickasaw, Clayton, Delaware, Fayette, Floyd, Franklin, Grundy, Hamilton, Hancock, Hardin, Humboldt, Howard, Marshall, Mitchell, Pocahontas, Webster, Winnebago, Winneshiek, Worth, Wright; and the eastern service area counties of Cedar, Clinton, Dubuque, Des Moines, Henry, Jackson, Lee, Louisa, Muscatine, and Scott). The CFATCs target families and their children who are in out-of-home care or at risk for being placed out of the home due to parental substance use.

Families served by the CFATCs receive enhanced assessment and case management services provided by staff that have received additional training. A key aspect of the extra training for CFATCs staff supports their work within a community collaborative committed to improved cross-systems integration. This project is also evaluating the effects on the children and families served. Specific evaluation questions include if parents demonstrate improved parental functioning, abstinence from substances of abuse, and mental health status; and if children experience improved well-being, permanency, and safety in comparison to children and families not receiving the enhanced case management and specialized services.

---

**TARGET POPULATION AND PROJECTED NUMBERS SERVED**

Families and their children who are in out-of-home care or at risk for being placed out of the home due to parental substance use or abuse served by CFATCs and living in IDHS’ two eastern service areas.

The program will serve 250 children over the course of the grant; 125 of them will receive treatment services and the other 125 will be part of the comparison group.
MAJOR PROGRAM GOALS

**GOAL 1:** Public and private agencies in the Eastern Region will deliver collaborative services within an integrated system of care for families with children who are in out-of-home care or at risk of being placed out of the home due to parental substance abuse.

**GOAL 2:** Professionals in the Eastern Region will demonstrate knowledge about the impact of prenatal or environmental exposure to substances of abuse and will be capable of making appropriate referrals to assessment and treatment for families and their children in out-of-home care or at risk of being placed out of the home due to parental substance abuse.

**GOAL 3:** Case workers in the Eastern Region will refer children in out-of-home care or at risk of being placed out of the home due to parental substance abuse for a full assessment of cognitive, behavioral, developmental, and mental health functioning.

**GOAL 4:** Comprehensive assessment of families and their children in out-of-home care or at risk of being placed out of the home due to parental substance abuse will result in a family treatment plan that will enhance enrollment of children and families in necessary services.

**GOAL 5:** The health and behavioral health status of families and their children in out-of-home care or at risk of being placed out of the home due to parental substance use or abuse in the Eastern Region of Iowa will be improved through the delivery of specialized, transdisciplinary treatment services.

**GOAL 6:** Permanency and stability will be increased for children who are in out-of-home care or at risk of being placed out of the home due to parental substance use.

MAJOR PROGRAM SERVICES

- **Case Management and Case Conferencing**
  - Transdisciplinary Treatment Planning and Case Management Meetings

- **Parenting/Family Strengthening**
  - Child-Parent Psychotherapy (CPP)
  - Strengthening Families Program (SFP)

- **Visitation Services**
  - Foster Parent Psychoeducation and Support from the Family Navigator

- **Family Therapy/Counseling**
  - Child-Parent Psychotherapy (CPP)

- **Mental Health and Trauma Services for Adults**
  - Mental Health Services
  - Psychiatric Care Including Medication Management
  - Child-Parent Psychotherapy (CPP)
• **Children’s Screening/Assessment**
  - Ages and Stages Questionnaire (ASQ),
  - Ages and Stages Questionnaire (ASQ): Social-Emotional
  - Pediatric Symptom Checklist
  - Trauma Exposure Screening
  - Clinical Interview and Observation
  - Child Behavior Checklist
  - Sensory Profile
  - Adaptive Behavior Assessment System
  - Medical/Neurological Exam
  - Bayley Scales of Infant Development III
  - Wechsler Intelligence Scales
  - Teacher Report Form
  - School records Wechsler Individual Achievement Test-III Temperament and Atypical Behavior Scale
  - Wisconsin Card Sorting Test
  - Wide Range Assessment of Memory and Learning–II
  - Trauma Symptom Checklist for Children or Young Children

• **Adult Screening/Assessment**
  - 4 Ps Plus©
  - Addiction Severity Index
  - Parent Relationship Questionnaire
  - Parenting Stress Index
  - Trauma Symptom Checklist–40
  - Clinical Interview
  - American Society of Addiction Medicine (ASAM) Level of Care Assessment

• **Children’s Services**
  - Early Intervention
  - Service Linking to Early Intervention Through Iowa’s Early Access (age 0–3)
  - IDEA Special Education (age 3–18)
  - Mental Health Counseling
  - Child-Parent Psychotherapy (CPP)
  - Substance Abuse Education, Prevention, or Related Support Groups
• Cross-Systems/Interagency Collaboration—Clinical-Related Activities
  o Cross-Systems Clinical Training (on substance abuse, child welfare, and related clinical issues)
  o Development of Formalized Cross-Systems Policies and Procedures (that are designed to improve communication, identification, referrals, and service delivery)
  o Transdisciplinary Treatment Planning and Case Management Meetings
  o Family Navigator (to assist family with referrals, services, and follow-up)

• Cross-Systems/Interagency Collaboration—Program and Policy-Related Activities
  o Staff Training (on collaboration, admission criteria, referral protocols, information and data sharing, and other RPG program policies and procedures)
  o Cross-Systems Information Sharing and Data Analysis
  o Regular Regional Partnership Meetings (to discuss program, policy and management issues)
  o Focus of the intervention (to follow the Response to Intervention Model of Care)

**PARTNER AGENCIES AND ORGANIZATIONS**

• Child Welfare
  o Iowa Department of Human Services

• Supportive Services for Children and Families
  o Allen Child Protection Center
  o Mississippi Valley Child Protection Center

• Education (including Early Childhood)
  o Iowa Department of Education
  o Early Childhood Iowa

**EVALUATION DESIGN**

**Outcome Study Design: Randomized Control Trial (RCT)**

The grantee’s local evaluation has two components: an impact study and a process study. The grantee is also participating in the RPG cross-site evaluation studies of family and child outcomes, program implementation, and collaboration among RPG grantees and partners.

**Impact Study Design**

The grantee will use a randomized-controlled trial to examine the impact of its RPG services among families with children who are in out-of-home care or at risk for being placed out of the home due to parental substance use. At Child and Family Assessment and Treatment Centers (CFATCs), members of the program group will receive assessments and treatment planning from
a Family Navigator, early intervention and education programs for children, substance abuse treatment programs, a family strengthening and prevention program, and child-parent psychotherapy and mental health services. Family Navigators will also coordinate and follow up on all service referrals. Members of the comparison group will receive assessments and treatment planning from Family Navigators at the CFATCs, and will then receive business-as-usual services that currently exist in the community and a case manager through the Iowa Department of Human Services. The impact study will include 250 families with 125 in the program group and 125 in the comparison group. The grantee will examine impacts in the following domains: permanency, safety, child well-being, family functioning, and recovery.

Data sources include administrative data and information collected by data collectors using standardized instruments. Family Navigators will administer baseline measures to all families. When the standardized instruments are administered at the follow-up periods, Family Navigators will collect data from the program group families, and the evaluation team will collect data from the comparison group families. Data will be collected four times for each family: (1) when families beginning services (at baseline, prior to randomization), (2) 6 months following baseline, (3) 12 months following baseline, and (4) 18 months following baseline.

**Process Study Design**

In the process study, the grantee will examine the implementation of program services and progress toward project goals. The process study includes an assessment of whether program services are implemented as intended and with fidelity, the extent of systems integration and collaboration among partners, perceptions of stakeholders with regard to how well the project is achieving its goals, whether the project is reaching the intended target population or not, and if that population is taking up services. Data sources include observations of service implementation and planning meetings, document reviews, case file reviews for families in the program and comparison groups, and interviews with program staff and key stakeholders.

**SUSTAINABILITY STRATEGIES AND ACTIVITIES**

Iowa Judiciary will be able to maintain these services by actively planning for sustainability from the start of the grant period. A cross-agency group of critical stakeholders is responsible for developing a plan no later than the end of the first year of the grant. Funds from the grant will institutionalize system reform to a more collaborative approach for working with children affected by substance abuse. Documentation of improved outcomes and individual success stories shared with the legislature, the court, and child welfare organizations will be used to argue for possible resource allocation to provide better services for families. The legislature has responded positively in the past to well-reasoned requests on children’s issues. For example, the legislature allocated funds to support Family Treatment Court coordinators after the RPG 1 grant was completed to ensure that family treatment courts continue.

This grantee profile is supported by the Administration on Children, Youth, and Families Children’s Bureau, under contract HHSS270201700001C.
